

*An amino acid supplement for equine of all ages and performance levels.*

ACES™ is unique top-dress supplement in pellet form designed for equine. It supports muscle development and helps maintain muscle mass. It contains ingredients approved for equine feed that are recognized to help supply an athletic horse with nutrients needed for strength and health.

- Formulated with key amino acids needed to build and maintain muscle mass
- Supplies Cell Rate®, a source of nucleotides that may help nourish natural body processes involved in stress, immunity and production
- Loaded with essential vitamins and minerals needed for many vital functions which could be crucial to performance and working horses

ACES is unique top-dress supplement in pellet form designed for equine. It supports muscle development and helps maintain muscle mass. It contains ingredients approved for equine feed that are recognized to help supply an athletic horse with the nutrients needed for strength and health.

## PRODUCT FORM

Pellet, 3.75-lb pouch (81813AAA2G); provides 15-day supply.

## FEEDING DIRECTIONS

Feed 4 oz per head daily either top-dressed or mixed with other feeds. Scoop included holds approximately 1 oz. ACES is **not a complete feed**; therefore, additional feed should be provided to meet the animal's nutrient requirements. Provide clean, palatable water at all times.
