

A Top-Dress Supplement for Swine, Cattle, Mature Horses, Goats, and Lambs

Product Positioning

MoorFlex is a unique, one-of-a-kind, top-dress supplement in meal form for exhibition swine, cattle, mature horses, goats, and lambs. It provides nutritional support for joint flexibility, helping show animals move with ease and comfort.

Features

Unique livestock feed approved ingredient

Cell Rate®

Highly available form of complexed (organic zinc)

Wheat germ meal

Vitamins A, D, and natural-source E

Multiple B-complex vitamins

Unique flavor

Meal form

Benefits

Provides a natural substance recognized to influence joint health.

Cell Rate contains nucleotides, the building blocks of RNA and DNA which are required for cell replication involved in maintenance, growth, and repair of body cells. Cell Rate provides nucleotides that support natural cell growth and proliferation involved in maintenance, reproduction, growth, immunity, digestion, and well being of the animal, especially under stressful conditions, such as show or performance.

Helps support immunity and integrity of hoof, gut, and skin.

Provides a source of octacosanol, which may provide beneficial advantages such as better blood oxygen carrying capacity to body tissues, supporting endurance, stamina, and muscle condition and strength.

Vitamin A is needed for normal growth, reproduction, and maintenance of healthy epithelial tissue. Vitamin D is needed to build strong, healthy skeletal frame. Research shows natural-source vitamin E provides more potent antioxidant activity compared to synthetic vitamin E. Vitamin E serves as an antioxidant which helps counteract harmful free radicals produced within the body and helps maintain cell membrane and tissue integrity, also necessary for proper immune system function.

Needed for a host of metabolic functions.

Encourages consumption.

Just sprinkle over the complete feed or grain mix.

Product form/packaging: Meal form, 3.75-lb (60 oz) pouch (I2298AAA5E) and 15-lb pail (I2298AAA79)

Feeding Directions

ShowTec MoorFlex is a top-dress supplement designed for swine, cattle, mature horses, goats, and lambs being fitted for show. This product is not a complete feed and must be fed with a complete show feed or complete grain mix to provide a complete diet. Feed show animals at least twice a day. Scoop included holds approximately 2 oz. Use the following as a guide:

Show Swine:	2 to 4 ounces per head per day
Show Cattle:	2 to 8 ounces per head per day
Mature Horses:	2 to 3 ounces per head per day
Show Lambs:	2 to 4 ounces per head per day
Show Goats:	2 to 4 ounces per head per day
