FEEDING DIRECTIONS

Destiny Dry Cow Mineral is to be fed to dry dairy cows to supplement nutrients supplied by commodities, grains and forages. This product is designed to be fed at a rate of 0.3 lb per head daily. For optimum performance of cows, rations should be balanced.

Cows should have access to clean, fresh water at all times.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. When mixed, rations should not contain more than 0.3 ppm selenium.
