FEEDING DIRECTIONS

Destiny Dry Cow 36% Conc is to be fed to dry dairy cows to supplement nutrients supplied by commodities, grains and forages. This product is designed to be fed at 1.5 lb per head daily. This product should be mixed with the grain or top-dressed on the grain or forage portion of the ration. For optimum performance of cows, rations should be balanced.

Cows should have access to clean, fresh water at all times.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed 1/3 of the crude protein of the total ration. Use only as directed.
