## FEEDING DIRECTIONS

Fortress Lactation Mineral 1:1 is to be fed to lactating dairy cows to supplement nutrients supplied by commodities, grains and forages. This product is designed to be fed at a rate of 0.5 lb (8 oz) per head daily. For optimum performance of cows, rations should be balanced.

Cows should have access to clean, fresh water at all times.

**CAUTION:** Consumption of this product by sheep and goats may result in copper toxicity. When mixed, rations should not contain more than 0.3 ppm selenium.
