

MoorMan's® ShowTec® MoorGrands™ Goat Feed RU

Product Number
81861CAU

A Texturized Grain Mix for Goats

Product Positioning

MoorMan's ShowTec MoorGrands Goat Feed is a high-quality, highly palatable, texturized feed designed to meet the unique needs of growing show goats. It is balanced with the precise combination of protein, energy, vitamins, minerals, and unique ingredients to support performance of genetically superior, growing show goats.

Features

Provides 15.5% protein, 3% fat, and 10% fiber

Select ingredients

Nutritionally balanced

Multiple high-quality protein sources

Properly fortified with minerals and vitamins (A, D, E and B-complex)

CitriStim®

Direct fed microbial

Prospense™

Heat stabilized rice bran

Added selenium and vitamin E

Ammonium chloride

Texturized form

Benefits

Supports fast, efficient lean gain in growing show goats.

Assures consistency; reduces feed variance.

Optimal growth and performance.

Optimal, efficient gains.

Optimal growth, structural development, health and metabolic functions.

An ADM proprietary feed ingredient that may help the animal strengthen its defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.

Supports digestive function by providing beneficial microorganisms to populate the gastrointestinal tract, leading to more efficient utilization of feedstuffs.

Provides essential micronutrients to enhance feed palatability and maximize digestion.

Provides rice oil (energy source), gamma oryzanol (potent antioxidant), and Omega 3 fatty acids (essential fatty acids).

Helps lower likelihood of white muscle disease; selenium and vitamin E are important for immune function.

Has been shown to provide some protection against the likelihood of urinary calculi in male goats.

Use of enticing high-quality, highly palatable ingredients in a texturized grain mix encourages feed consumption.

Product Form: Texturized form, 50-lb bag (81861CAU84)

Guaranteed Analysis

Crude Protein, min.	15.5%
(This includes not more than 1.4% equivalent crude protein from non-protein nitrogen.)	
Crude Fat, min.	3.0%
Crude Fiber, max.	10.0%
Acid Detergent Fiber, max.	16.0%
Calcium (Ca), min./max.	0.5-1.0%
Phosphorus (P), min.	0.35%
Salt (NaCl), min./max.	0.35-0.85%
Sodium (Na), min./max.	0.2-0.7%
Copper (Cu), min./max.	10-20 ppm
Selenium (Se), min.	0.3 ppm
Vitamin A, min.	10,000 IU/lb

Ingredients

Crimped Oats, Flaked Corn, Crimped Barley, Cane Molasses, Whey Products, Cottonseed Hulls, Dehulled Soybean Meal, Dehydrated Alfalfa Meal, Cottonseed Meal, Calcium Carbonate, Ammonium Chloride, Lignin Sulfate, Condensed Soybean Solubles, Propionic Acid (a preservative), Brewers Dried Yeast (*Saccharomyces Cerevisiae*), Salt, Heat Stabilized Rice Bran, Vegetable Oil, Dried Lactobacillus Acidophilus Fermentation Product, Dried Lactobacillus Casei Fermentation Product, Dried Bifidobacterium Thermophilum Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Monocalcium Phosphate, Dicalcium Phosphate, Ethylenediamine Dihydride, Manganous Oxide, Manganese Sulfate, Ferrous Sulfate, Cobalt Carbonate, Zinc Sulfate, Zinc Oxide, Sodium Molybdate, Animal Fat, BHT (A Preservative), Sodium Propionate (A Preservative), Sodium Selenite, Extracted Citric Acid Presscake, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Menadione Sodium Bisulfite Complex, Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Thiamine Mononitrate, Vitamin B₁₂ Supplement, Biotin, Pyridoxine Hydrochloride, Folic Acid, Choline Chloride, Amorphous Silicon Dioxide, Soybean Oil, Citric Acid - Ethoxyquin - BHT - BHA (Preservatives), Phosphoric Acid, Vegetable Mono- and Diglycerides, Talc, Natural and Artificial Flavor.

For the prevention of coccidiosis caused by *Eimeria crandallis*, *E. christensen*i and *E. ninakohlyakimovae*.

Active Drug Ingredient

Monensin 20 g/ton (10 mg/lb)

Feeding Directions

Feed complete feed continuously as the sole ration to wethers and does being fitted for show. Make sure goats have access to clean, fresh water and forage at all times. Goats should be fed a minimum of 2 ounces of ShowTec #1 Mineral Supplement per day or 2 ounces per 100 lb of body weight per head per day. To complete the feeding phase and achieve the desired amount of cover or to compensate for stress during any period of the feeding program, top-dress with 8 to 16 ounces of ShowTec Fast Fat per 100 lb of body weight per head per day.

CAUTION: Do not allow horses or other equines access to feeds containing monensin. Ingestion of monensin by horses has been fatal. Monensin-medicated feed is intended for use in cattle or in goats. Consumption by unapproved species may result in toxic reaction. Do not exceed the levels of monensin recommended in the feeding directions, as reduced daily gains may result. Do not feed to lactating goats.

WARNING: Consumption of this product by sheep may result in copper toxicity. This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed $\frac{1}{3}$ of the crude protein of the total ration. Use only as directed. For goats only.
