

MoorMan's® ShowTec® FIRE EXTINGUISHER™ R II

Product Number
81904AAA

A Supplement for Beef Cattle, Goats, and Lambs Being Fed for Exhibition

Product Positioning

MoorMan's ShowTec FIRE EXTINGUISHER R II is a unique top-dress supplement in meal form for exhibition beef cattle, sheep, and goats. It provides research-proven Thermal Care™ R which helps ruminants cope with heat stress. ShowTec FIRE EXTINGUISHER R II contains CitriStim® as well as a direct fed microbial to support digestibility and nutrient availability and help support gut health. ShowTec FIRE EXTINGUISHER R II can be fed during any phase of the feeding program when high environmental temperature may be a challenge.

Features

Provides 18% protein, 3.5% fat, and 16% fiber

Thermal Care R

CitriStim

Direct fed microbial

Ammonium chloride

Cobalt glucoheptonate

Complexed (organic) zinc

Vitamins A, D, and natural-source E

Multiple B-complex vitamins

Thiamine

Unique flavors

Meal form

Benefits

Supports fast, efficient lean gain.

Patent-pending technology that utilizes specially selected, research tested compounds to help animals cope with heat stress.

An ADM proprietary feed ingredient that may help the animal strengthen its defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.

Comprised of naturally-occurring, beneficial bacteria used to support healthy gut microbial balance and overall health and function of the GI tract. Probiotics help maintain normal, healthy digestion by supporting the population of bacteria in the GI tract and intestinal integrity. Probiotics also boost enzyme production in the GI tract, which enhances nutrient utilization and absorption.

Has been shown to provide some protection against the likelihood of urinary calculi in male sheep and goats.

Source of cobalt, which is essential in the formation of red blood cells; may enhance fiber digestion, making energy utilization by the animal more efficient.

Supports immunity and integrity of skin and hooves.

Vitamin A is needed for normal growth, reproduction and maintenance of healthy epithelial tissue. Vitamin D is needed to build strong healthy skeletal frame. Research shows natural-source vitamin E provides more potent antioxidant activity compared to synthetic vitamin E. Vitamin E serves as an antioxidant which helps counteract harmful free radicals produced within the body and helps maintain cell membrane and tissue integrity, also necessary for proper immune system function.

Needed for a host of metabolic functions.

Thought to help deter polioencephalomalacia and enhance appetite.

Encourages consumption.

Easy to feed as a top-dress; reduces ingredient segregation; and less feed waste.

Recommended consumption:

- Show cattle: 1.5 lb for 500-lb animal and 2 lb for 1,000-lb animal
- Show lambs and show goats: 1.5 oz per 50-lb body weight

Product form:

- Meal form, 10-kg bag (81904AAA1M)

Guaranteed Analysis

Crude Protein, min.	18.0%
(This includes not more than 1.0% equivalent crude protein from non-protein nitrogen.)	
Crude Fat, min.	3.5%
Crude Fiber, max.	16.0%
Calcium (Ca), min./max.	0.75–1.25%
Phosphorus (P), min.	0.35%
Selenium (Se), min.	0.3 ppm
Vitamin A, min.	20,000 IU/lb

Ingredients

Processed Grain By-Products, Roughage Products, Grain Products, Plant Protein Products, Dried Extracted *Aspergillus niger* Fermentation Solubles, Forage Products, Molasses Products, Dried *Lactobacillus acidophilus* Fermentation Product, Dried *Lactobacillus casei* Fermentation Product, Dried *Bifidobacterium thermophilum* Fermentation Product, Dried *Enterococcus faecium* Fermentation Product, Extracted Citric Acid Presscake, Calcium Carbonate, Animal Fat, BHT (A Preservative), Ammonium Chloride, Natural and Artificial Flavors, Sodium Propionate (A Preservative), Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Menadione Sodium Bisulfite Complex, Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Thiamine Mononitrate, Vitamin B12 Supplement, Biotin, Pyridoxine Hydrochloride, Folic Acid, Zinc Amino Acid Complex, d-alpha Tocopheryl Acetate, Manganese Amino Acid Complex, Sodium Selenite, Silicon Dioxide, Vegetable Oil, Citric Acid - Ethoxyquin - BHT - BHA (Preservatives), Phosphoric Acid, Mono- And Diglycerides Of Edible Vegetable Oils, Cobalt Glucoheptonate.

Feeding Directions

ShowTec FIRE EXTINGUISHER™ R II is a top dress supplement designed for beef cattle, goats, and lambs being fitted for show. This product is not a complete feed and must be fed with a complete show feed or complete grain mix to provide a complete diet. For show beef cattle, the amount of ShowTec FIRE EXTINGUISHER™ R II to feed daily should be split into two equal feedings. Use the following tables as a guide:

For Beef Show Cattle

Body Weight	Top-dress
500 lb	0.75 lb/head/day
1000 lb	1.0 lb/head/day

For Show Lambs and Goats

Body Weight	Top-dress
50 lb	0.75 oz/head/day
100 lb	1.5 oz/head/day
150 lb	2.25 oz/head/day

NOTE: Do not feed to swine.

Always provide clean, fresh water to animals at all times. Feed salt or a salt-containing mineral free-choice. Animals should be kept parasite free and current on all vaccinations and/or medications recommended by a veterinarian

CAUTION: This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed $\frac{1}{3}$ of the crude protein of the total ration. Use only as directed. For ruminants (cattle, sheep, and goats) only.
