INGREDIENTS

Dicalcium Phosphate, Calcium Carbonate, Salt, Processed Grain By-Products, Magnesium Oxide, Vegetable Oil, Molasses Products, Zinc Oxide, Manganous Oxide, Iron Oxide, Sodium Selenite, Basic Copper Chloride, Ethylenediamine Dihydroiodide, Cobalt Carbonate, Lactic Acid, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement.

FEEDING DIRECTIONS

MoorMan's 646 Mineral is formulated for grazing cattle on pasture or range receiving little or no grain. When starting to feed, remove salt and self-feed this product. Feed continuously near the cattle's source of water.

Recommended consumption is 0.125 lb (2 oz) per head per day.

If consumption is more than recommended, feed salt in addition to this product or change to MoorMan's 646 Block. If consumption is less than recommended, make sure no other source of salt is available and increase the number of feeding stations, or relocate to areas more frequented by cattle.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity.

NOTE: To be fed as the sole source of selenium. Beef Cattle should not receive more than 3 mg selenium. When mixed, rations should not contain more than 0.3 ppm selenium.
